RollerPro 250 Twin

EASY MOVEMENT AND TWIN BELTS

RollerPro 250 Twin combines the convenience of a roller base with the improved pedestrian control of two belts. Ideal for high traffic queuing applications where barriers need to be moved frequently and pedestrians restricted from "line ducking." This product's lower belt also makes it ADA (Americans with Disabilities Act) compliant. The RollerPro 250 Twin features a unique two piece post construction which allows the lower belt mechanism to be easily replaced in the field. The Xtra model features a 50% wider belt for a more visible barrier and giving much greater impact to printed logos and messages.

Standard 2"/50mm Belt
Model ROL250TwinB

Xtra 3"/75mm Belt
Model ROL250TwinXB

3 EASY STEPS TO REMOVE THE LOWER BELT CASSETTE

Step 1: Remove post
retaining screws

Step 2: Slide off the post top

Step 3: Loosen the cassette
retaining screws and slide
out the cassette
