RollerSafety 250 Twin

HIGH VISIBILITY TWIN BELT SAFETY BARRIER

RollerPro Safety 250 Twin combines the convenience of a roller base with the improved pedestrian control of two belts. The roller base is ideal for the fast, easy setup of barrier lines while the lower belt restricts pedestrians from ducking under the belt and makes this product ADA (Americans with Disabilities Act) compliant. The RollerPro 250 Twin also features a unique two piece post construction which allows the lower belt mechanism to be easily replaced in the field. The Xtra model features a 50% wider belt making a more visible barrier and giving much greater impact to printed logos and messages.

Standard 2"/50mm Belt
Model ROL250TwinB

Xtra 3"/75mm Belt
Model ROL250TwinXB

3 Easy Steps to Remove the Lower Belt Cassette

Step 1: Remove post retaining screws

Step 2: Slide off the post top

Step 3: Loosen the cassette retaining screws and slide out the cassette
